## Abstract

- Value-Based Growth: More than a habit tracker, it fosters moral development through engaging tasks
- Gamified Learning: Kids earn rewards by completing interactive, value-driven challenges
- Culturally Adapted: Designed for Arabic-speaking communities, aligning with local traditions and beliefs
- Parental Support: Parents track progress, reinforcing values beyond the app
- Building Character: A fun, interactive way to nurture lifelong positive behavior

## Goals

- Value Inculcation
- Sustainable Habits
- Engaging Learning
- Cultural Relevance
- Parental Support

## Design

- User-Centered Interface: Designed to be visually engaging and easy for children to navigate
- Interactive Elements: avatars, badges, and gamified challenges
- Customizable Parental Dashboard: Allows parents to assign and track habits
- Color & Accessibility: Optimized for visibility and ease of use.

## Tools

PARENT SIDE EXAMPLE

## METHODOLOGY

- Value-Driven Feedback Collection: Gathered parent and child feedback through iterative testing to refine value-based features
- Technology & Value Integration: Applied psychological habit models to promote positive values and cultural habits
- Cultural Testing & Optimization: Ensured the app aligns with cultural and religious values in Arabic-speaking communities

CHILED SIDE EXAMPLE

## Conclusion

BVN goes beyond habit tracking, it's a value-based digital companion that nurtures lifelong moral and behavioral habits

- Culturally Tailored: Designed for Arabic-speaking communities, ensuring relevance and alignment with local values.
- Interactive & Engaging: Combines gamification, parental control, and value-driven challenges to reinforce core ethics.
- Innovative Approach: Integrates psychological habit models and ethical considerations to shape a self-motivated, morally grounded future generation.
